My Portfolio Website

Name: Michael Ian Catindoy

Year/Section: BSCS 3-A

Website Description:

  The Content of this website is my portfolio that requirements of my currently school. This website has a index.html file that display my brief introduction of myself. And it has a 4 navigations home, about, project and a contact.

About.html

  In this page it shows my information and at the bottom it has a word "download my resume" it will direct you to my copy of resume.

Project.html

  This page shows my recently project, hands on and assignments.

Contact.html

  In this last navigation show my social media accounts and how you can contact me.
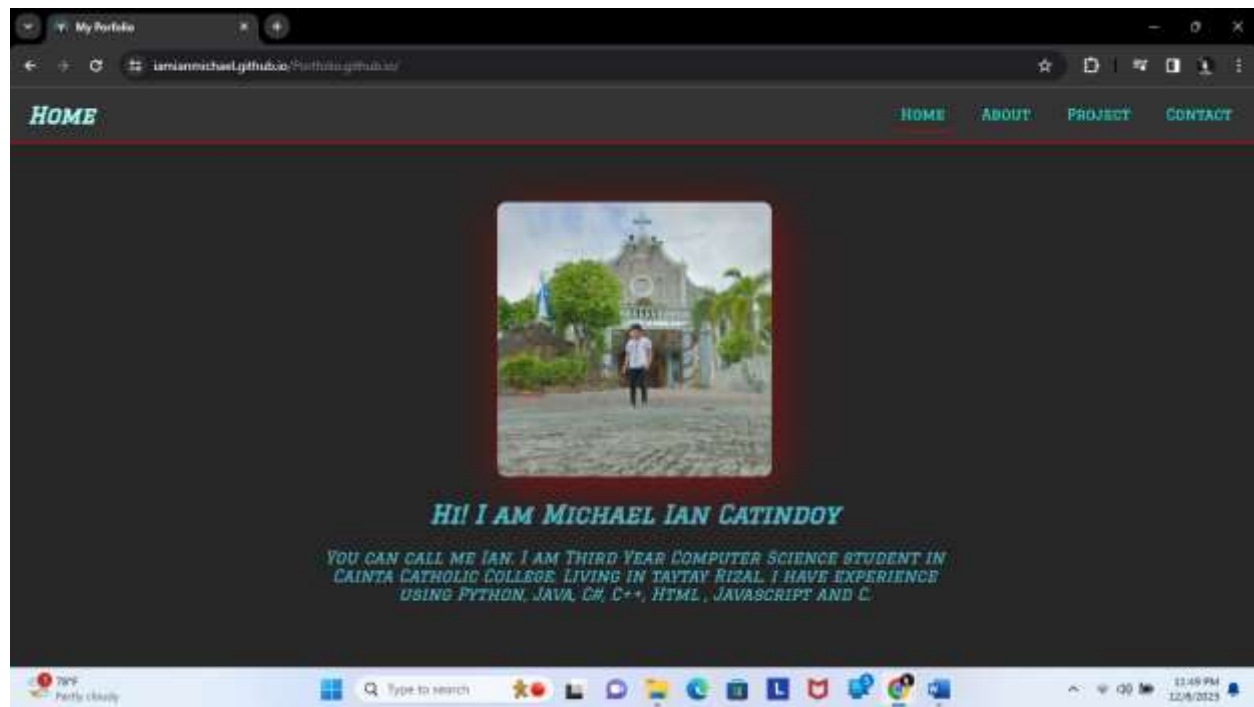

I created all of that using **hypertext Markup Language, Javascripts, Cascading Style Sheets.** Thank to my professor and the help internet. I use javascript to open other files and CSS to design and animate my website.
